Vision

To educate creative, questioning individuals who have internalized the Republic's main values, have the skills to access information, have gained the habit of working efficiently, think freely, is sensitive about animals and humans, respect ethical values, principled and self-confident

Mission

ITU Development Foundation İzmir Schools, by taking individual differences into account aim to ensure, that our students graduate with self-confidence who can question the world, academically research and also be active in social and sport activities.

Goals

- to ensure that our students learn about democracy through personal Experience,
- to present basic methods based on sharing and cooperation,
- to use a system of evaluation and measurement that emphasizes that the effort to achieve a result is as important as the result itself,

- to be an example to our students of being open to learning and striving to gain knowledge,
- to ensure that the families and the school communicate in such a way as to contribute to the development of the student,
- to ensure that the student healthy and balanced progress, in their physical, spiritual and mental development,
- to encourage students to adopt a positive and constructive attitude while communicating and fulfilling their responsibilities,
- to ensure that the students are civilized, and responsible citizens,
- to create the opportunities for the students to develop their interests and talents to the highest degree,
- to ensure that they are ready and willing to accept the developments and progress necessary to the age,
- to support their focus on success,
- to ensure that they can adopt a corporate culture,

History

ITU Development Foundation Schools started their educational journey with Private Sedat Üründül Kindergarten in 2000, continue their education activities in Natuk Birkan Primary School (2001), Ekrem Elginkan High School (2005), Beylerbeyi Private Kindergarten and Primary School, which started to serve in 2011 in Istanbul Ayazağa and Beylerbeyi campuses.

ITU GVO, which provides education in four different schools in Istanbul, chose Izmir to continue its education activities outside Istanbul, for this reason they collaborated with NESAN Group of Companies, one of the most distinguished industrial organizations in Izmir.

Since 2014, NESAN Group of Companies has undertaken the representation and investment of ITU GVO in Izmir. Izmir Kindergarten, Primary School, Middle School and High School have been opened as the newest link of ITU Development Foundation Schools (GVO).

ITU GVO Izmir Schools continue their educational activities as a k-12 school by welcoming kindergarten students in the 2014 academic year, elementary and middle school students in 2015 and high school students in the 2016 academic year. The first graduates of ITU Development Foundation Private Izmir Anatolian High School left the school in 2020.

ITU Development Foundation Schools have been structured as five separate schools under the same roof of Cultural Inc. The Education Advisory Board, which consists of faculty members, determines the education policies of schools, directs and supervises their functioning and academic development in accordance with the principles. Our students, who are educated in the buildings

equipped with a contemporary understanding and technology, are supported by the cultural heritage, accumulation and education staff of Istanbul Technical University, offered an opportunity to continue their education in an integrated system.

Student Admission Requirements

Admission to our school is conducted based on MEB High School entrance exam and ITU High School Entrance Exam results

Students who pass the exams successfully are interviewed by the School Counselling Service in order to get to know the students.

Every student welcomed to ITU Development Foundation Izmir High School is enrolled in the Prep Class. The prep class is a one-year education that is predominantly in English. As well as English classes, there are courses from other academic branches. Students who wish to pass the prep class are required to take the Prep Exemption Exam. Students who score above 70 in this exam go directly to the 9th grade. Those who fail the exam study in the Prep Class for one year.

Curriculum

ITU GVO Izmir follows the national high school curriculum determined by the Ministry of National Education. Since our school is in the category of "Anatolian High Schools with Preparatory Class", it focuses on foreign language education. English is the primary foreign language at our school. Students choose a second foreign language, either German or Spanish. Within the scope of English education, terminology of mathematics and science lessons are given in English in the 9th and 10th grades. In the 11th and 12th grades, courses are given in Turkish in order to prepare students for the national

university placement exams. AP Calculus, AB and AP English Language and Composition courses are offered for students who want to take the AP exams. The school has many extracurricular clubs and cultural, artistic and sports activities are held in our school throughout the year.

Grading

Excellent	85-100
Good	70-85
Average	60-70
Passing Grade	50-60
